## 22.3 Other contingent liabilities

- 22.3.1 There are certain claims which have not been acknowledged as debts. These mainly represent counter claims by the borrowers, claims filed by the former employees of the Bank and certain other claims. Based on legal advice and/or internal assessments management is optimistic that the matters will be decided in the Bank's favour and the possibility of any adverse outcome is remote. Accordingly, no provision has been made in these financial statements for the same.
- 22.3.2 The Bank is contesting a case filed by an employee in the Peshawar High Court regarding changes in post retirement benefit plans made by the Bank w.e.f. January 1, 2019. The management based on a legal opinion is of the view that such changes were lawfully made as per Bank's policy and is optimistic about the favourable outcome of the case. Hence, no provision in this respect is recognised in these financial statements. Considering the complexity and uncertainty in nature, the financial impact cannot be reasonably ascertained.

- 22.3.3 The matters arising from income tax assessments of the Bank up to Tax Year 2024 are detailed below:
  - i) In respect of Tax Year 2014, the Commissioner Inland Revenue, Appeals (CIRA), issued an order dated November 24, 2021 under section 129 of the Income Tax Ordinance, 2001 in which he remanded back certain matters to Commissioner Inland Revenue (CIR) for reassessment and also upheld few matters. Being aggrieved, the Bank filed an appeal with Appellate Tribunal Inland Revenue (ATIR) on February 23, 2022, which is currently pending.
    - The remand back proceedings were also completed by CIR, and order was issued, creating a total demand of Rs. 231 million (2023: Rs. 231 million) in respect of remand back proceedings and for matter upheld by CIRA and mainly included disallowances on account of provision for doubtful debt, depreciation and workers welfare fund. The Bank filed correction application with CIR as well as appeal with CIRA, on May 18, 2022 which is currently pending.
  - ii) In respect of Tax Year 2015, Deputy Commissioner Inland Revenue issued an order dated February 23, 2023 creating an additional tax demand along with default surcharge of Rs. 645 million (2023: Rs. 645 million) under section 161 of income Tax Ordinance, 2001, mainly on account of non-deduction of withholding taxes on profit on debt, salaries and wages, advertisement and professional charges etc. Being aggrieved, the Bank filed an appeal before CIRA on March 22, 2023 which is currently pending.
  - iii) In respect of Tax Year 2016, Additional Commissioner Inland Revenue issued an order dated June 21, 2022 creating a demand of Rs. 188 million (2023: Rs. 188 million) on account of provision for non-performing loans and advances. Being aggrieved the Bank filed an appeal with CIRA on July 22, 2022 which is currently pending.
  - iv) In respect of Tax Year 2017, Additional Commissioner Inland Revenue issued an order dated May 29, 2023 creating a demand of Rs. 130 million (2023: Rs. 130 million) on account of provision for non-performing loans and advances. Being aggrieved the Bank filed an appeal with CIRA on July 4, 2023 which is currently pending.
    - Pursuant to Tax Law (Amendment) Act, 2024, appeal cases pending before Commissioner (Appeals) have now been transferred to Appellate Tribunal Inland Revenue, as per the pecuniary limits prescribed under section 126(A) of the Income Tax Ordinance, 2001.
- 22.3.4 The Bank's share of contingencies of it's associated company i.e. Taurus Securities Limited amounts to Rs. 8.62 million (December 31, 2024: Rs. 8.62 million)

Management is confident of a favourable outcome of the above matters. Hence, no provision has been recognised for the same in these condensed interim financial statements.

### 34 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified under held to collect / held to maturity, is based on quoted market price. Quoted securities classified under held to collect / held to maturity are carried at amortised cost. The fair value of unquoted equity securities, other than investments in associates, is determined on the basis of fair value of these investments as per note 34.2.4.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of current and active market for these assets and liabilities and reliable data regarding market rates for challenge in the property of the control of th

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since assets and liabilities are either short-term in nature or in the case of customer loans and deposits, are frequently re-priced.

## 34.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using inputs that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy in to which the fair value measurement is categorized:

<sup>34.2</sup> The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements. The Bank's policy is to recognize transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred. There were no transfers between level 1 and 2 during the period.

#### 34.2.3 Valuation techniques and inputs used in determination of fair values within level 1

Fully paid-up ordinary shares Fair values of investments in listed equity securities are valued on the basis of closing quoted market prices available at the Pakistan Stock Exchange

### $34.2.4 \quad \text{Valuation techniques and inputs used in determination of fair values within level 2}$

Pakistan Investment Bonds / Market Treasury Bills Fair values of Pakistan Investment Bonds and Treasury Bills are derived using the PKRV rates for fixed

rate securities and PKFRV rates for floating rate PIB's (Reuters page).

Fair values of GoP Ijarah Sukuks are derived using the PKISRV rates announced by the Financial Market Government of Pakistan (GoP) - liarah Sukuks Association (FMA) through Reuters. These rates denote an average of quotes received from eight

different pre-defined / approved dealers / brokers.

Investments in debt securities (comprising term finance certificates, bonds, Sukuk certificates and any Term Finance, Bonds and Sukuk certificates other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital) are valued on the basis of the rates announced by the Mutual Funds Association of

Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan. In the determination of the rates, the MUFAP takes into account the holding pattern of these securities and categorizes these as traded, thinly traded and non-traded securities. However, fair values of investments in unquoted debt securities are valued on the basis of present

value technique based on market interest rates.

Unquoted equity securities In line with the BPRD circular letter no. 16 dated July 29, 2024, the Bank has adopted the fair value model for measurement of carrying value of its unquoted equity securities effective January 01, 2025. Accordingly, the Bank has used the Embedded Valuation Model for measuring the fair value of the

unquoted equity securities held by the Bank in a takaful company (note: 36.1). Uptill December 31, 2024, the carrying value of these securities was determined on the basis of the break-up value of these

investments as per their latest available audited financial statements.

#### Valuation techniques and inputs used in determination of fair values within level 3

assets acquired in satisfaction of claims

Operating fixed assets (Leasehold land) and non-banking These assets are revalued on regular basis using professional valuers on the panel of Pakistan Banker's Association. The valuation is based on their assessment of market value of the properties.
